

## Lateral Slide Assembly Instructions

The lateral slots allow the keyboard platform to slide left and right, parallel to the work surface.

Lateral Slide Feature  
(Patent Pending)

### List of parts and order for assembly:

- A) Bolt
- B) Wave Washer
- C) Shoulder Washer
- D) Keyboard platform with Lateral Slots
- E) Mechanism mounting plate
- F) NyLock Nut

(parts not to scale)

The platform slides left to right along the two 12" slots. The tension needs to be enough to keep the platform secure but at the same time easily able to slide left to right easily.
