

CPU Holders

The CPU is the second most important tool in your office next to your employees. Where do you put this important tool? The work surface is valuable space and the floor makes the CPU susceptible to dust, static electricity and the vacuum cleaner. The CPU is too important a tool to put on the floor. The CPU Support allows you to utilize the wasted space under the desk; the swivel and slide feature keep it accessible.

9650CP CPU Support

This CPU Support features a 13 1/4" to 9 1/4" height and 5 1/4" to 9 1/4" width adjustments to accommodate most CPU sizes. It features a 360° degree swivel for rear port access. A 13 1/2" ball-bearing track can be mounted parallel or horizontal to the work surface.

9900CP Convertible CPU Holder

Simple assembly, easily adjusts from 15" to 19" in length and from 5 1/2" to 10" in width. This unit can convert to accept most horizontal CPU's.

9950CP CPU Trolley

This versatile and cost efficient CPU holder protects the computer from dust and static electricity by raising the CPU from the floor. The four casters provide mobility for easy access to the rear ports of your computer. It adjusts to fit most CPU sizes.

9250CP Lock and Store CPU Holder

This lockable CPU holder with soft touch knob and lock has a load rating up to 85 lbs. Features a 360° degree swivel for easy rear port access. The Lock and Store adjusts from 3 1/2" to 9 1/3" width and 12 1/2" to 22 1/2" in height. This CPU holder is retractable on 18" glide track.
