

Atlas Series & Slides

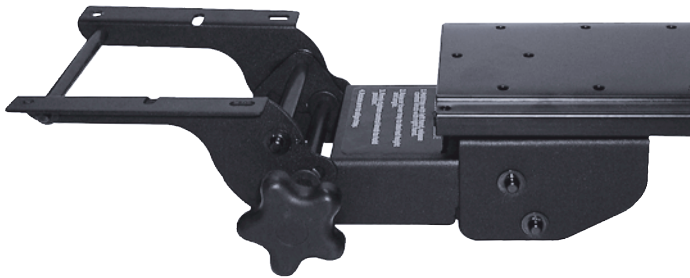

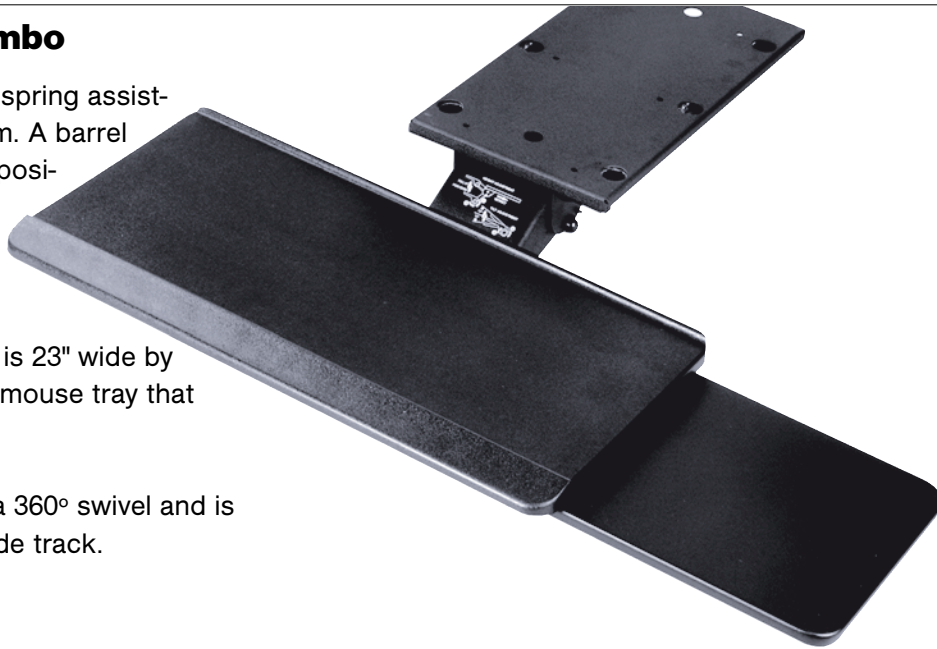

Atlas Series

23250 Atlas Combo

This combo features a spring assisted, fully articulating arm. A barrel knob adjusts both 10° positive, 15° negative tilt and 6" height adjustment.

The keyboard platform is 23" wide by 11" deep with a sliding mouse tray that extends left or right.

The Atlas Combo has a 360° swivel and is retractable on a 21" glide track.

23200GS Atlas Arm

This is the most economical spring assisted, fully articulating arm.

It features a star knob for both 10° positive, 15° negative tilt and 6" height adjustment. A barrel knob is available - upcharge applies. This arm has a 360° swivel and is retractable on a 17" glide track.

23150 Atlas Arm - non retractable

Same features as above but mounts directly to the front of the work station.

Slides

3800BR Ballbearing Slides

Extremely cost effective way to upgrade existing work stations for greater space efficiency.

Available in 16" length with Zinc finish and fixed height. Mounts underneath any work station. This slide is compatible with 22" and 27" wide Grand II Series platforms only.

Platform not included.
